

Rhythmic gymnastics

Rhythmic gymnastics is the most elegant discipline of the International Gymnastics Federation (FIG).

The floors and carpets for rhythmic gymnastics made by SPIETH are world-wide recognized and are used both in training centres and competitions all over the world. The SPIETH RG floors were chosen for the Olympic Games in Beijing 2008 and Athens 2004 as well as for many World Championships.

The choice of gymnasts and coaches is determined by the dynamic base construction combined with the high-quality antistatic velour carpet.

Art. 652, 658

RG Competition Floor "BEIJING"

FIG certified. Official RG floor at the Olympic Games 2004 in Athens and 2008 in Beijing!

14 x 14 m floor with shock absorbing base construction consisting of 121 sections, each 124 x 124 cm, and covering equalizing plates fixed together by means of Velcro. Special foam elements provide superior shock absorption. Extremely smooth, antistatic, top quality RG super velour carpet with great shearing resistance ensures optimal training and competition conditions.

The scope of supply includes red tape to mark the competition area of 13 x 13 m and double-sided glue tape to fix the RG carpet.

Alternatively available with carpet of 14 x 14 m or 16 x 16 m and in colour savanna-beige.

Due to a better presentation to spectators and for TV broadcasting we do recommend to use the RG floor of 16 x 16 m at competitions.
