

Tumbling track

Art. 134

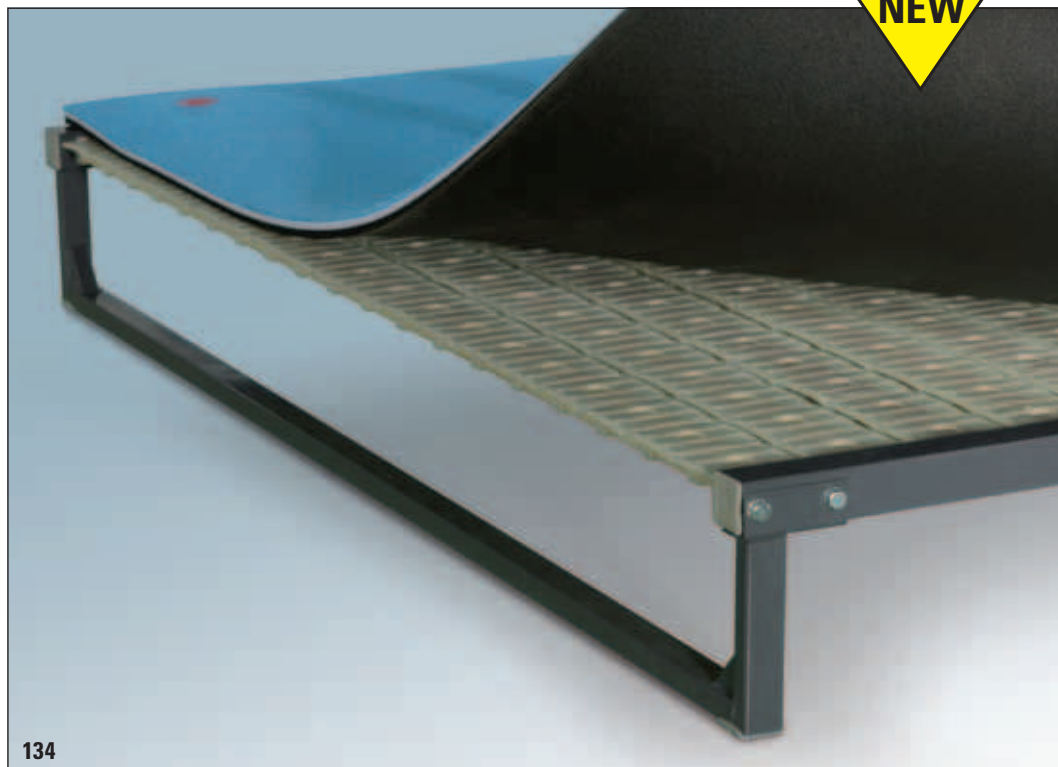

Tumbling Track "SPIETHway II"

FIG certified.

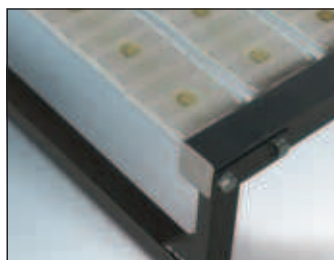

Newest development of the competition tumbling track. Solid steel frame with glass-fibre rods and plastic adapters for better pressure distribution, consisting of 21 elements of 121 x 200 cm each. Covered with multi-layer, overlapping floor exercise mat TRIFLEX with integrated grid material providing additional protection and durability of mat. Total length of tumbling track 25.41 m.

The ideally matched materials cause highest elasticity and reduce the arising power peaks at most. Particularly suited as a training track for training centres.

Other lengths available upon request.

Art. 155, 156 Run-up Track

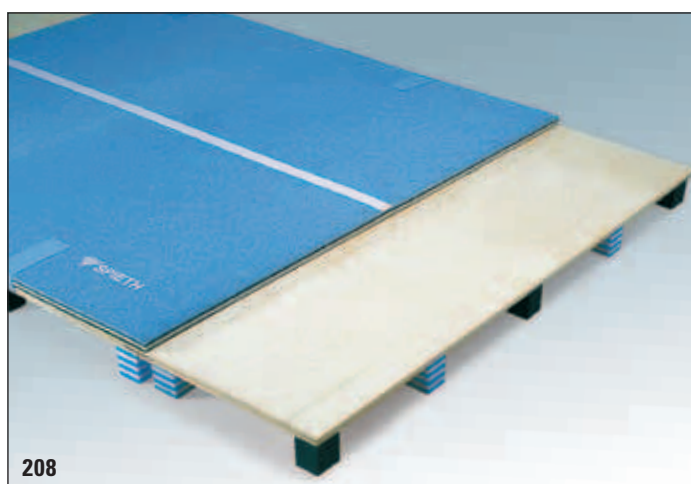

Art. 157 Landing Area

Art. 208

Tumbling Track "Stuttgart"

Size per element 122 x 200 cm. Without rollable mat. Constructed of pressure distribution plate made of flexural elastic multilayer special plywood connected with bottom spring plate by means of Velcro. Total height approx. 12.5 cm, with Velcro tape on long sides to fix the rollable mats (alternatively in colours yellow or spiethblue). Length upon request!

We recommend to cover the base construction with SPIETH floor exercise mats "FLEXIROLL®" or "TRIFLEX®".

208

Art. 196, 197, 198

Tumbling Element "Stuttgart" for self-assembly

Same as Art. 208, however, as a kit supplied with installation tools, hot glue, Velcro tapes as well as assembly instructions.

Minimum order quantity 9 elements!

Art. 196

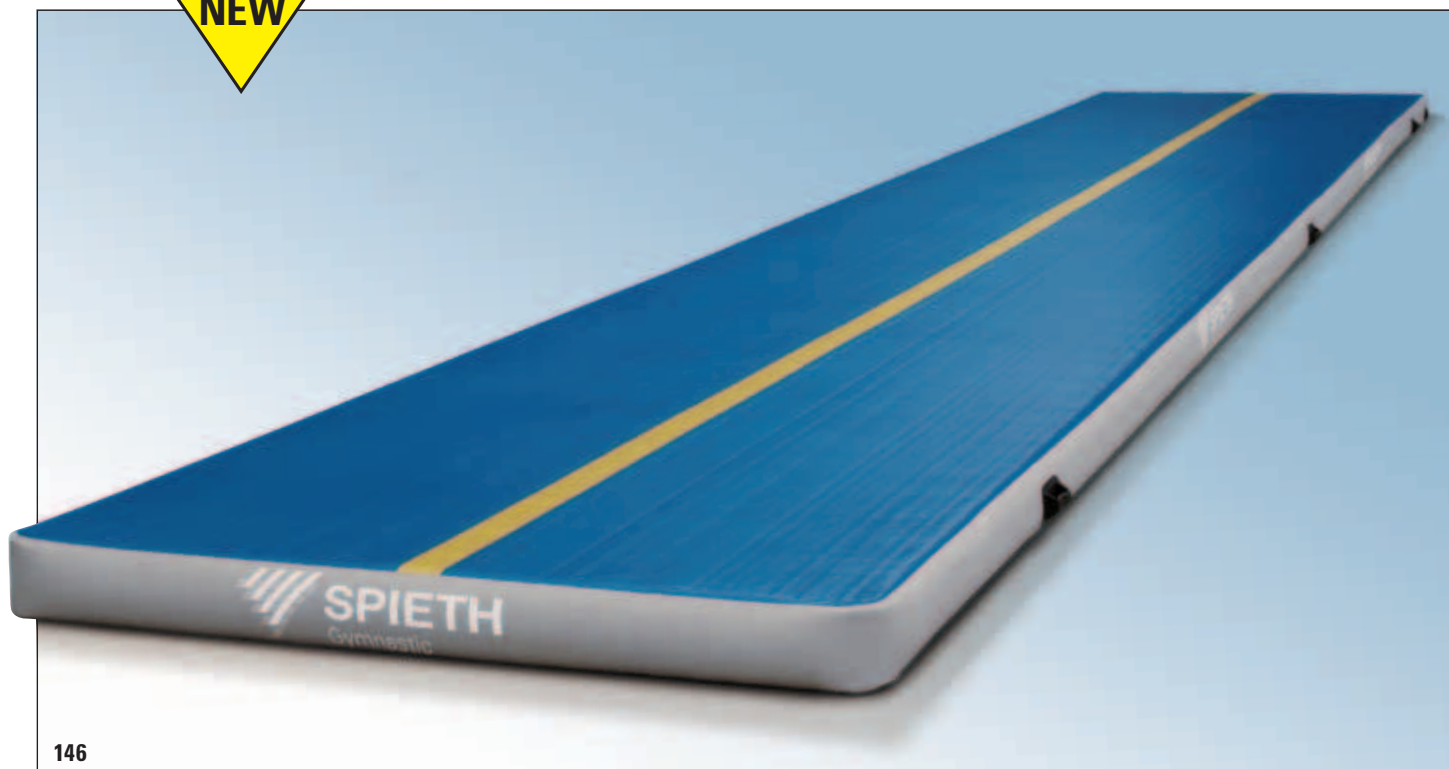

Art. 196 with 11 elements (length approx. 13.50 m)

Art. 197

Art. 197 with 9 elements (length approx. 11 m)

Art. 198

Art. 198 single element (1.22 x 2.00 m)

NEW

146
Art. 146
Airtrack "PRO"

Inflatable smooth tumbling track made of stamped vinyl sheet with an adjustable 2.2 kW fan that blows continuously. Suitable for indoor and outdoor installation.

Versatile movement and application possibilities.

Length: 15 m, Width: 2.70 m, Height: 0.33 m.

Due to innovative construction the weight of the track is only 115 kg.

Supplied standard in colour blue with yellow marking.

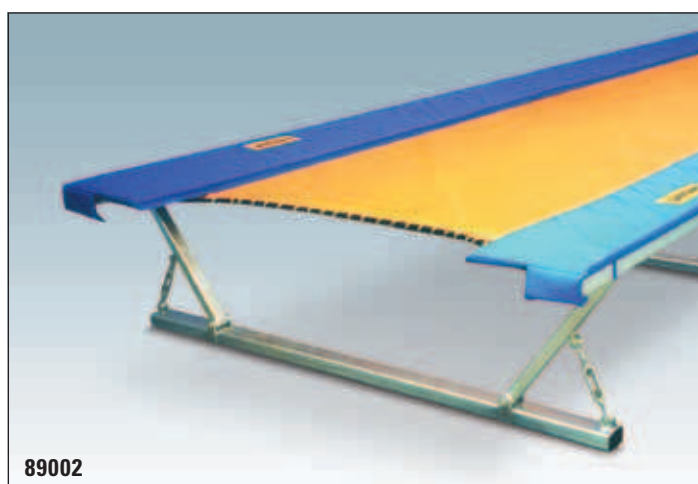

Other lengths available upon request!

Art. 158
Airtrack "Super Silent PRO"

Similar to Art. 146, however, due to the completely welded and practically airtight construction the Airtrack "Super Silent PRO" has a better performance in comparison with the Airtrack "PRO".

Supplied with an adjustable 0.95 kW fan in a flight case on wheels. The fan maintains the required pressure and switches on and off automatically. The present air track has a very low noise level. Due to innovative construction the weight of the track is only 115 kg.

Supplied standard in colour blue with yellow marking.

89002
Art. 89002
Trampoline Track "Vario"

With high rebound performance, for a permanent installation in training centres. The rebound effect and cushioning are co-ordinated in such a way that they provide a superior wrist protection. Re-adjustable springs. Ideal as training track for acrobatic elements. Length and width per element 2 x 2 m.
